Directions for Ordering

This List Conforms with 1923 Edition Standardized
Plant Names

Write plainly and give explicit directions as to address and mode of shipment. Shipments will be forwarded exactly as directed, but when without instructions, we will use our judgment in forwarding. We recommend herbaceous plants be shipped by express.

ALL ORDERS ARE ACCEPTED SUBJECT TO previous sale and the following terms and conditions:

PRICES in this catalog cancel all previous lists and quotations and are subject to change without notice. **Prices include packing, except on special bulky pieces,** for which cost of packing will be extra, and are f. o. b. our shipping station, or for local delivery f. o. b. customer's place if within 20 miles of our Nurseries.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the trees chosen, irrespective of catalog list price.

RATES.—Lots of 5 and 50 of a variety will be furnished at the 10 and 100 rates respectively. Where no price per single plant is quoted lots of less than five plants of any one sort are sold at the 10 rate, plus 50%.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when for your convenience accounts will be opened due in 30 days from date of invoice.

Forwarding and Shipping

SHIPPING SEASON opens about March 1st in the Spring and August 1st in the Fall.

INSPECTION.—Our stock is regularly inspected and certificate will be sent with each shipment.

GUARANTEE AND CLAIMS.—All goods are guaranteed true to name, full count, up to grade, and in good condition when shipped. Our stock is of the highest grade, thrifty and well grown, insuring its success if properly cared for after transplanting.

WE CAN GIVE NO GUARANTEE ON THE LIFE OF STOCK, as we have no control over its usage after it leaves our hands.

CLAIMS must be made within five days after receipt of goods. Stock delivered as per order and in good condition is not returnable.

GOODS IN TRANSIT.—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition.

CLAIMS FOR DAMAGE WHILE IN TRANSIT MUST BE MADE AGAINST THE DELIVERY COMPANY. Have delivery agent note the damaged condition on the freight bill, and promptly present your claim to the transportation company.

ANDORRA NURSERIES, Inc.

The Real Value of Planting

There is no doubt that the pleasure we derive from the contemplation or possession of living plants is increased a hundred-fold by skill in their arrangement in the places where they are finally to grow.

The greatest value that a plant can have is certainly not that of a museum specimen, but lies rather in its power to add comfort and attractiveness to the places where we live, work and play.

To all who have planting to do, from the simplest bit to the development of a large place, Andorra Nurseries strongly recommends the advice of a trained Landscape Architect.

From his experience in the use of plant material he can suggest those combinations and arrangements which will be fitting and wise to prevent costly and discouraging mistakes. Planning ahead is a guarantee of success.

AUGUST 1924

An Invitation to Andorra

Those interested in trees and plants out-of-doors are always cordially welcome at Andorra. Excellent highways through this beautiful rolling section of Pennsylvania, with its charm of colonial manor house and country-place, offer inviting roads from every direction to visitors in motor cars.

BY MOTOR from Philadelphia, go out the Parkway; along the East River Drive, continuing up the Wissahickon and Lincoln Drives to McCallum Street, turn left and follow through to dead end, turning right on Mermaid Lane and follow good road, turning left on St. Martins Lane, follow through, turning right over bridge at Highland Station, continuing three blocks to Germantown Avenue. Turn left to City Line and then left one square to the Nursery.

TRAIN CONNECTIONS over the Chestnut Hill branches of both the Pennsylvania and Reading Railroads make Andorra a two-hour run out of New York and a half hour from the heart of Philadelphia to Chestnut Hill Stations; from Chestnut Hill a ten-minute ride on the City Line car brings one to the Nurseries.

Evergreen Trees

This List Conforms with 1923 Edition Standardized Plant Names
All Evergreens are lifted with soil and burlapped

All Prices are for Stock of Our Selection. Customer's Selection
Will be Charged at Value of Stock Selected

ABIES concolor.

WHITE FIR. Tall, rapid growing; hardy
rich silvery needles. For specimen or groups.
3 to 3½ ft. Each \$7.50
3½ to 4 ft. 8.50
5 to 6 ft. 15.00
6 to 7 ft. 20.00

Specimens. Large and handsome—
8 to 10 ft. \$25.00 to 50.00

A. nordmanniana.

NORDMAN FIR. Tall; dark, glossy green
foliage. Good specimen.

5½ to 6 ft. Each \$20.00
6 to 7 ft. 25.00

Specimens. Broad, spreading trees,
from 8 to 16 ft. in height....\$30.00 to 150.00

A. veitchii.

VEITCH FIR.

6 to 7 ft. Each \$15.00
7 to 8 ft. 25.00

BIOTA (See THUJA).

CEDRUS atlantica glauca.

BLUE MOUNT ATLAS CEDAR. Airy py-
ramidal tree with silvery-green needles. Use
as specimen.

5 to 6 ft. Each \$10.00
6 to 7 ft. 12.50
12 to 13 ft. 50.00

Specimens. 14 to 18 ft. \$75.00 to 150.00

C. libani.

CEDAR OF LEBANON. Its horizontal
branches make it a picturesque specimen.

Specimens. 12 to 16 ft. Each \$50.00 to 125.00

CHAMAECYPARIS. (See *Retinospora*, page 16, and *Thujopsis*, page 20.)

CRYPTOMERIA japonica, Drachoides.

JAPANESE TEMPLE CEDAR. Oriental in
effect. As specimen or in groups.

10 to 12 ft. Each \$25.00
14 to 16 ft. Each \$35.00 to 50.00

CRYPTOMERIA japonica, Lobbi.

LOBB CRYPTOMERIA. Tall and slender.
Splendid for Winter effect of dark bronze-
tinged foliage. The beauty-loving Japanese
use this stately evergreen especially for set-
ting off their temples.

Specimens. 8 to 10 ft. Each \$25.00

Specimens. 10 to 12 ft. 35.00

Specimens. 12 to 14 ft. 50.00

Specimens. 16 to 18 ft. 75.00

Cedars as Accents in the Boundary Planting

ILEX. (See also pages 30-69.)

I. aquifolium.

ENGLISH HOLLY. Bright and cheery in Winter landscapes in protected corners.

2 to 2½ ft.	Each \$3 50
2½ to 3 ft.	4 50
3½ to 4 ft.	6 00

I. opaca.

AMERICAN HOLLY. Well known and hardier than the English Holly. Effective in border groups or as specimens. Red Berries.

1½ to 2 ft.	Each \$2 75	Per 10 \$22 50
2 to 2½ ft.	4 00	32 50
2½ to 3 ft.	4 50	36 00
3½ to 4 ft.	7 50	60 00
4½ to 5 ft.	10 00	80 00
5 to 6 ft.	12 50	
6 to 7 ft.	\$15.00 to 20 00	

JUNIPERUS chinensis.

CHINESE JUNIPER. Precise columnar form; grayish-green foliage. For formal effects or mixed evergreen planting.

7 to 8 ft.	Each \$20 00
8 to 9 ft.	25 00
Specimens. 9 to 10 ft.	35 00

J. chinensis, albo-variegata.

WHITELEAF CHINESE JUNIPER. Tall pointed pyramid with attractive colored needles. For formal use.

5 to 6 ft.	Each \$15 00
6½ to 7 ft.	20 00
7 to 8 ft.	25 00
Specimens. 9 to 12 ft.	\$35.00 to 60 00

JUNIPERUS chinensis, femina reevesi.

REEVES JUNIPER. Of free-growing form; more valued in mixed planting than formal use. Spreading upright branches.

4½ to 5 ft.	Each \$10 00
5 to 6 ft.	12 50
7 to 8 ft.	25 00

J. chinensis, pfitzeriana.

PFITZER JUNIPER. Its sweeping, gray-green branchlets give this broad, bushy type value for mixed planting.

1½ to 2 ft. spread	Each \$3 50
2 to 2½ ft. spread	5 00

A few large specimens. Prices on application.

J. chinensis, virginiana.

GLOBE CHINESE JUNIPER. Very low-growing; use in masses in low border planting.

18 to 24 in. spread	Each \$7 50
2 to 2½ ft. spread	10 00
2½ to 3 ft. spread	12 50

J. communis.

COMMON JUNIPER. Dense fastigiate form; grayish-green foliage. Valuable for formal effects.

2½ to 3 ft.	Each \$3 00
4 to 4½ ft.	4 00
4½ to 5 ft.	5 00
5 to 6 ft.	6 00
6 to 7 ft.	7 50

J. communis, depressa plumosa.

PURPLE SPREADING JUNIPER. NEW introduction. Invaluable in Fall and Winter when foliage is tinged with rich purple.

	Per 10
12 to 15 in. spread	Each \$2 50 \$20 00
15 to 18 in. spread	3 00 24 00
18 to 20 in. spread	4 00 32 50
20 to 24 in. spread	5 00 40 00
24 to 30 in. spread	6 00 50 00

J. communis, horizontalis douglasii.

WAUKEGAN JUNIPER. Dark green foliage. Low growing, spreading; of exceptional merit.

10 to 12 in. spread	Each \$2 50 20 00
12 to 15 in. spread	3 50 28 00

J. communis, suecica.

SWEDISH JUNIPER. For formal use. Slow-growing; gray-green needles. Tall columnar.

4½ to 5 ft.	Each \$7 50
6 to 7 ft.	8 50

J. excelsa, stricta.

SPINEY GREEK JUNIPER. Close-growing, pyramidal form with gray-green foliage. Excellent in the formal garden.

Specimens. 7 to 8 ft.	Each \$35 00
----------------------------	--------------

JUNIPERUS japonica.

JAPANESE JUNIPER. Low-growing with rich green foliage. For the border or rockery.

Specimens.	7 to 8 ft.	Each	\$25 00
	Specimens.	8 to 9 ft.	35 00

J. japonica, aurea.

GOLDEN JAPANESE JUNIPER. Low-growing; needles golden green in Spring.

			Per 10
2½ to 3 ft.	Each	\$40 00
3 to 3½ ft.	6 00	48 00
3½ to 4 ft.	7 50	60 00
4 to 4½ ft.	8 50	68 00
4½ to 5 ft.	10 00	

J. sabina, tamariscifolia.

TAMARIX SAVIN. Grayish-green foliage, suited for rockery work. Low, spreading.

8 to 10 in. spread	Each	\$1 75	15 00
10 to 12 in. spread	2 50		20 00

J. squamata.

JAPANESE TRAILING JUNIPER. Low, spreading, with sparkling effect of glaucous green foliage. For rock garden or border.

10 to 12 in. x 20 to 24 in. spread	Each	\$4 00	32 00
10 to 12 in. x 30 to 36 in. spread	6 00		48 00

J. virginiana.

REDCEDAR. Tall and slender, resembling the Italian Cypress in form and rich, dark green color. All these Cedars should be used more in deciduous plantings, where they give an enlivening note in color and form. All the tall varieties are excellent for formal work.

3 to 3½ ft.	Each	\$3 75	30 00
3½ to 4 ft.	4 00		32 50
4 to 4½ ft.	5 00		40 00
4½ to 5 ft.	6 00		47 50
5 to 6 ft.	7 50		60 00

J. virginiana, glauca.

SILVER REDCEDAR. A bluish gray. For garden or border. Tall and slender.

4½ to 5 ft.	Each	\$8 50	
Specimens.	8 to 9 ft.	25 00	
Specimens.	9 to 10 ft.	30 00	
Specimens.	10 to 11 ft.	35 00	
Specimens.	11 to 12 ft.	40 00	
Specimens.	12 to 14 ft.	50 00	

J. virginiana, kosteri.

KOSTER REDCEDAR. Dark green needles. Spreading in habit. For rockery or border.

18 to 24 in. x 2½ to 3 ft.	Each	\$7 50	
----------------------------	-------	------	--------	--

JUNIPERUS virginiana, elegantissima.

GOLDTIP REDCEDAR. Like Redcedar in form, with attractive golden tipped growth. Habit compact and columnar. An unusual and beautiful tree.

7 to 8 ft.	Each \$15 00
Specimens. 9 to 10 ft.	20 00
Specimens. 10 to 11 ft.	25 00
Specimens. 11 to 12 ft.	35 00

J. virginiana, pendula.

WEEPING REDCEDAR. Slender pendulous branches. Attractive in evergreen or mixed borders.

7 to 8 ft.	Each \$15 00
8 to 9 ft.	17 50
9 to 10 ft.	20 00

J. virginiana, schotti.

SCHOTT REDCEDAR. Very like the Redcedar in form and color. Interesting texture.

6 to 7 ft.	Each \$12 50
Specimens. 7 to 8 ft.	20 00
Specimens. 8 to 9 ft.	25 00
Specimens. 9 to 10 ft.	30 00
Specimens. 10 to 11 ft.	35 00
Specimens. 11 to 12 ft.	40 00

PICEA canadensis.

WHITE SPRUCE. Tall, pyramidal, very shapely; foliage silvery-blue. Excellent for grouping.

9 to 10 ft.	Each \$15.00 to \$20.00
Specimens.....	Price on application.

P. engelmanni.

ENGELMANN SPRUCE. Broad pyramidal form with soft gray-green foliage. Splendid as a specimen.

4½ to 5 ft.	Each \$15 00
5½ to 6 ft.	20 00

P. excelsa.

NORWAY SPRUCE. Best Spruce for screens and hedges. Dark green; rapid growth. Per 10

18 to 24 in.	Each \$1 75	\$15 00
Specimens. 11 to 12 ft.	25 00	
Specimens. 12 to 14 ft.	35 00	
Specimens. 14 to 16 ft.	50 00	

P. excelsa, pyramidalis.

PYRAMIDAL NORWAY SPRUCE. A compact dark green spire shape for formal use.

Specimens. 10 to 12 ft.	Each \$25 00
Specimens. 12 to 14 ft.	35 00
Specimens. 14 to 16 ft.	50 00

PICEA orientalis.

ORIENTAL SPRUCE. Pyramidal; dark green; valuable for grouping or specimens.

6 to 7 ft.	Each \$20 00
7 to 8 ft.	35 00

Specimens. 8 to 9 ft. 50 00

Specimens. 10 to 16 ft. \$75.00 to 150 00

Specimens with Ball and Platform, 20% additional.

P. polita.

TIGERTAIL SPRUCE. Warm, green, spiky foliage. Use as specimen or in groups.

2½ to 3 ft.	Each \$7 50
8 to 9 ft.	30 00
9 to 10 ft.	\$35.00 to 50 00

P. pungens.

COLORADO SPRUCE. Symmetrical; very hardy; foliage light green. For specimen or windbreak.

5 to 6 ft.	Each \$15 00
6 to 7 ft.	20 00
7 to 8 ft.	25 00

Specimens. 8 to 18 ft. \$35.00 to 150 00

P. pungens, glauca.

BLUE COLORADO SPRUCE. Familiar silvery-blue tree; provides distinct color note. Use as specimen.

5 to 6 ft.	Each \$20 00
6 to 7 ft.	25 00

Specimens. 8 to 9 ft. \$35.00 to 50 00

Specimens. 10 to 16 ft. \$75.00 to 150 00

Specimens. 18 to 25 ft. \$175.00 to 250 00

P. pungens, kosteri.

KOSTER COLORADO SPRUCE. Like variety glauca, but more distinct in rich color of silvery-green.

Specimens. 7 to 8 ft. Each \$35 00

Specimens. 10 to 20 ft. \$75.00 to 150 00

PINUS cembra.

SWISS STONE PINE. Very slow-growing conical tree. Attractive silvery-green needles.

4 to 4½ ft.	Each \$7 50
4½ to 5 ft.	8 75
5 to 6 ft.	10 00
7 to 10 ft.	\$15.00 to 35 00

P. densiflora, globosa.

JAPANESE TABLE PINE. (Tanyosho.) So named because it forms a wide, soft green table-top. Lavender-candled buds in Spring.

Specimens rich in form and color.

6 to 7 ft. x 6 ft. Each \$35 00

8 to 10 ft. x 7 to 8 ft. 50 00

8 to 10 ft. x 8 to 10 ft. 75 00

Pinus Mughus in the Foreground of a Border Planting

PINUS excelsa.

HIMALAYAN PINE. Use this gracefully-branched, silvery-gray-green tree in masses. In habit like White Pine.

Specimens. 9 to 10 ft. Each \$35 00
Specimens. 12 to 20 ft. \$50.00 to 150 00

P. montana.

SWISS MOUNTAIN PINE. Invaluable for edging, rich evergreen plantings or rockeries; low.

3 to 4 ft. x 2½ to 3 ft.	Each \$8 50
4 to 5 ft. x 4 to 5 ft.	12 50
5 to 6 ft. x 4 to 5 ft.	17 50
6 to 7 ft. x 5 to 6 ft.	25 00
8 to 9 ft. x 5 to 6 ft.	50 00

P. montana, mughus.

MUGHO PINE. Dwarf, slow, compact and neat in habit; very hardy. Its dark green foliage and formal shape make it valuable in the same situations where Boxbush is used. Unclipped, it is admirable in low evergreen plantings or rockery.

30 to 36 in. spread Each \$7 50

Specimens. 36 to 42 in. spread 10 00

Specimens. 42 to 48 in. spread 12 50

Specimens. 48 to 54 in. spread 15 00

Specimens. 54 to 60 in. spread 20 00

P. nigra.

AUSTRIAN PINE. One of the best for border or mass planting, or as shelter or screen. Its glossy, dark green needles and rugged branches will stand the smoke of cities.

8 to 9 ft. Each \$30 00

Specimens repeatedly transplanted and grown apart; ideal individual trees. These lift with a large compact ball which is carefully prepared for transplanting.

Specimens. 10 to 20 ft. ... \$75.00 to \$150 00

A SUCCESSFUL PLANTING at the base of the house, on a rather narrow terrace, where ample space must be left for a walk.

The upright Junipers (*J. va. schotti*) carry out the vertical movement of the gables and windows. The Prostrate Junipers, Evergreen Azaleas and Dwarf Rhododendron form a rich and colorful ground cover, interesting and warm throughout the year.

The entrance door is marked by Specimen Box Bush.

PINUS resinosa.

RED PINE. Beautiful dense tree. Bark, reddish brown; foliage, light green.

3 to 3½ ft.	Each \$4 00
3½ to 4 ft.	5 00

P. thunbergi.

JAPANESE BLACK PINE.

Specimens. 14 to 18 ft.. Each \$75.00 to 100 00
Specimens with Ball and Platform, 20% additional.

P. strobus.

WHITE PINE. Tall and straight with glaucous foliage. Group on lawn or high border with flowering trees. Use for close screen.

8 to 9 ft.	Each \$10 00
9 to 10 ft.	20 00
12 to 16 ft.	\$25.00 to 75 00
Specimens.	18 to 25 ft.100.00 to 150 00

P. sylvestris.

SCOTCH PINE. Reddish brown bark, silvery green foliage. A quick growing screen tree.

3 to 3½ ft.	Each \$3 50
3½ to 4 ft.	4 00
4 to 5 ft.	5 00
5 to 6 ft.	7 50
6 to 7 ft.	10 00

PSEUDOTSUGA douglasii.

DOUGLAS FIR. Beautiful soft, dark green foliage. Can be used for hedges.

Per 10

5 to 6 ft.	Each \$7 50	\$60 00
6 to 7 ft.	9 00	72 50
Specimens.	7 to 8 ft.	12 50 100 00
Specimens.	8 to 9 ft.	15 00 120 00
Specimens.	9 to 10 ft.	20 00 160 00

P. douglasii, glauca elegantissima.

ROYAL BLUE DOUGLAS FIR. Open growing.

4 to 5 ft.	Each \$8 50
5 to 6 ft.	10 00
6 to 7 ft.	15 00

P. douglasii, pendula.

WEEPING DOUGLAS FIR. Japanese in effect with its downward hanging branches.

9 to 10 ft.	Each \$20 00
-------------	-------	--------------

RETINOSPORA filifera. (CHAMAECYPARIS.)**THREAD BRANCHED JAPANESE CYPRESS.**

Medium height; foliage deep green. For formal use. This and nearly all the following Japanese Cypresses are equally valuable in formal work, in mixed evergreen plantings, as specimens, screen groupings and hedges.

3 to 3½ ft.	Each \$6 00
3½ to 4 ft.	7 50
4 to 4½ ft.	8 50
4½ to 5 ft.	10 00
Specimens.	5½ to 6 ft.	12 50
Specimens.	8 to 9 ft.	25 00
Specimens.	10 to 12 ft.	\$35.00 to 75 00

R. obtusa.**HINOKI CYPRESS.** Clear, good, deep green foliage. Of graceful habit.

6 to 7 ft.	Each \$20 00
8 to 9 ft.	30 00

R. obtusa, crippsi.**YELLOW HINOKI CYPRESS.** Loose growing. Warm color note in garden or base planting.

2 to 2½ ft.	Each \$7 50
2½ to 3 ft.	10 00
3 to 3½ ft.	12 50
3½ to 4 ft.	15 00
4 to 4½ ft.	17 50
4½ to 5 ft.	20 00
5 to 6 ft.	25 00

R. obtusa, nana.**DWARF HINOKI CYPRESS.** Very slow-growing, dwarf. Rich, dark green color. Useful in pots, in garden or in rich base plantings.

15 to 18 in.	Each \$4 00
18 to 24 in.	6 00
24 to 27 in.	7 50
27 to 30 in.	10 00
Specimens.	3 to 3½ ft.	17 50
Specimens.	4 to 4½ ft.	20 00
Specimens.	4½ to 5 ft.	25 00
Specimens.	5 to 6 ft.	35 00

R. pisifera.**SAWARA CYPRESS.** Tall, pyramidal shape; broad, flat foliage of deep, glossy green. A beautiful formal specimen when clipped.

Specimens.	6 to 7 ft.	Each \$15 00
Specimens.	7 to 8 ft.	20 00
Specimens.	8 to 9 ft.	25 00
Specimens.	Well clipped and compact.		
10 to 16 ft.		\$50.00 to 100 00

RETINOSPORA pisifera, aurea.

GOLDEN SAWARA CYPRESS. Like type in form and habit.

Specimens.	5 to 6 ft.	Each \$10 00
Specimens.	6 to 7 ft.	15 00
Specimens.	7 to 8 ft.	20 00
Specimens.	8 to 9 ft.	25 00
Specimens.	10 to 16 ft.	\$50.00 to 100 00

R. plumosa.

PLUME CYPRESS. This, with the golden variety, stands shearing best. Useful for edges and formal work. A tall pyramidal shape.

2½ to 3 ft.	Each \$4 00
3 to 3½ ft.	5 00
Specimens.	7 to 8 ft. 20 00
Specimens.	8 to 9 ft. 25 00
Specimens closely clipped to narrow columnar form, admirably adapted to formal use, 10 to 16 ft.		\$50.00 to 100 00

R. plumosa, aurea.

GOLDENPLUME CYPRESS. One of hardiest. The rich golden growth of Spring holds well through the Summer. One of the best for specimens or hedges.

Specimens.	5 to 6 ft.	Each \$10 00
Specimens.	6 to 7 ft.	15 00
Specimens.	7 to 8 ft.	20 00
Specimens.	Sheared to close columnar form.		
	8 to 9 ft.	25 00
	10 to 18 ft.	\$50.00 to 100 00

R. plumosa, sulphurea.

SULPHURPLUME CYPRESS. Soft yellowish-green color; compact form.

2 to 2½ ft.	Each \$3 75
2½ to 3 ft.	4 50
3 to 3½ ft.	Extra broad 8 50
3½ to 4 ft.	Extra broad 12 50
4 to 4½ ft.	Extra broad 17 50
5 to 6 ft.	25 00
Specimens.	Broad pyramidal shaped—	
	6 to 8 ft.\$20.00 to 35 00

R. squarrosa.

MOSS CYPRESS. Choice as specimen. Its silvery-blue foliage is soft and extremely graceful, and stands clipping when used in hedges or for formal specimens.

5 to 6 ft.	Heavy	Each \$8 50	Per 10	\$72 50
6 to 7 ft.	Heavy	12 50	100 00	
7 to 8 ft.	Heavy	17 50	150 00	

Specimens.	Rich in color and sheared to narrow columnar form—	
	10 to 18 ft.\$35.00 to 150 00

SCIADOPITYS verticillata.

UMBRELLA PINE. Characteristically Japanese; compact, slow growing and narrowly conical. A beautiful formal specimen.

Specimens.	7 to 8 ft.	Each \$35 00
Specimens.	8 to 9 ft.	50 00
Specimens.	10 to 12 ft.	75 00

TAXUS baccata.

ENGLISH YEW. A dense, close branched evergreen with dark green foliage. Berries bright red, splendid in protected positions.

3½ to 4 ft.	Each \$10 00
6 to 8 ft.	\$25.00 to 50 00

T. baccata, aurea.

GOLDEN ENGLISH YEW. Like the green form in habit, but with exceptionally rich golden tinged foliage.

2½ to 3 ft.	Each \$15 00
3½ to 4 ft.	20 00

Specimens.	Wide and bushy, boldly contoured,	
5 to 7 ft.	\$35.00 to 50 00

T. baccata, erecta aurea.

GOLDEN BROOM YEW. Similar in habit to preceding. Foliage bright gold.

Specimens.

3 to 3½ ft.	Each \$15 00
4 to 4½ ft. x 3 to 3½ ft.	Each \$20.00 to 25 00

T. baccata, fastigiata aurea.

GOLDEN IRISH YEW. Similar to preceding in habit; leaves margined golden yellow.

5 to 6 ft.	Each \$25 00
6 to 7 ft.	35 00

T. baccata gracilis pendula.

RAMS HORN YEW. Growth symmetrical, with horizontal branches drooping at the ends. Most ornamental of the Yews.

Specimens.	5 to 6 ft.	Each \$20 00
Specimens.	6 to 7 ft.	50 00
Specimens.	7 to 8 ft.	75 00
Specimens.	8 to 10 ft.	100 00

T. baccata, repanda.

SPREADING ENGLISH YEW. The Yews are exceedingly rich in foliage and useful in all Evergreen planting. This dwarf type is of most pleasing character and masses well with other Evergreens. As a low hedge it has no superior. Low and spreading; luxuriant dark green foliage. For fronting the Evergreen border it is just right.

12 to 15 in. Spread	Each \$3 25
15 to 18 in. Spread	4 00
18 to 20 in. Spread	4 50
20 to 24 in. Spread	5 00

TAXUS baccata, washingtoni.

WASHINGTON YEW. Strong growing, dense and bushy; foliage tinged with rich bronze tones in winter. One of the richest of the Yews in form and color.

Specimens.

5 to 6 ft. Each \$35.00 to \$50.00

T. canadensis.

CANADA YEW. Of low spreading habit; foliage dark green.

15 to 18 in. Spread	Each \$2.50
18 to 24 in. Spread	3.00

T. cuspidata.

JAPANESE YEW. Dense growing, spreading, deep green foliage; very hardy. Use in plantations near house and garden for its note of richness.

Specimens are unusually large pieces with spreading branches forming plants of rich character.

15 to 18 in. Spread	Each \$3.50
18 to 24 in. Spread	4.00
2 ft. x 2 ft. Spread	7.50
2½ ft. x 2½ ft. Spread	12.50

Specimens. 2½ ft. x 3 ft. Spread 15.00

Specimens. 3 to 3½ ft. Spread 20.00

Specimens. 3½ to 4 ft. Spread 25.00

Specimens. 4 to 5 ft. Spread. \$30.00 to 35.00

Specimens. 4 ft. x 6 to 7 ft. Spread....50.00

T. cuspidata (capitate form).

UPRIGHT JAPANESE YEW. Hardier than the English Yews. Of upright growth, dense green foliage; slow growing. For grouping or for hedges and garden use.

2 to 2½ ft.	Each \$4.00
-------------	------	-------------

4 to 4½ ft.	15.00
-------------	------	-------

Specimens. 4½ to 5 ft. 25.00

Specimens. 5 to 6 ft. 30.00

T. cuspidata, brevifolia.

DWARF JAPANESE YEW. One of the richest and most handsome dwarf evergreens and typically Japanese in its beauty. Spreading branches thickly clothed with short dark green needles. Equally valuable for formal or naturalesque effects.

12 to 15 in.	Each \$4.00

E. radicans vegetus.

BIGLEAF WINTERCREEPER. Scarlet fruited, strong growing evergreen vine. Handsome foliage. Use as ground cover.

2-year; field-grown	Each \$0 50	3 50	25 00
---------------------------	-------------	------	-------

THE VALUE OF EVERGREEN SHRUBS is shown here. The situation is difficult on account of the exposure and the shade from building and large trees. Deciduous shrubs and flowers would not persist here, but the following are thriving:

Japanese Holly (*Ilex crenata* and *Ilex crenata microphylla*).

White Azalea (*Azalea indica alba*).
Evergreen Euonymous (*Euonymous vegetus*).

Rhododendron Hybrids.

Mountain Laurel (*Kalmia latifolia*).

Drooping Andromeda (*Leucothoe catesbeiae*).

ILEX. See also pages 8 and 69.

I. crenata.

JAPANESE HOLLY. Open rapid grower. Dark green, glossy leaves; inky black berries. Valuable for formal work when clipped, for specimens, and in borders with bright-fruited plants.

		Per 10	Per 100
15 to 18 in. Bushy	Each \$2 50	\$20 00	\$160 00
18 to 20 in. Bushy	3 00	24 00	215 00
20 to 24 in. Bushy	4 00	32 00	285 00
24 to 30 in. Bushy	7 50	60 00	480 00
30 to 36 in. Bushy	10 00	80 00	

Specimens. 3½ to 6 ft.\$15.00 to 50 00

I. crenata, buxifolia.

BOX-LEAVED JAPANESE HOLLY. Broad leaves; columnar growth; rich dark green foliage. For borders or garden.

Specimens. Picturesque in form and of unusual character—

3½ to 4 ft.	Each \$10 00
4 to 4½ ft.	15 00
4½ to 5 ft.	17 50
6 to 8 ft.	35 00

I. crenata, fortunei.

FORTUNES HOLLY. Rich, shiny, green foliage. For intimate border or garden.

2 ft.	Each \$4 00
2½ ft. x 2 ft.	7 50
2½ ft. x 2½ ft.	10 00

Specimens. 3 to 3½ ft.\$20.00 to 25 00

Specimens. 3½ to 4 ft.30 00

Specimens. 4½ to 6 ft.\$35.00 to 50 00

I. crenata, latifolia.

JAPANESE TREE HOLLY. Dark foliage; tall and free-growing type.

4½ to 5 ft.	Each \$12 50
5 to 6 ft.	15 00
6 to 7 ft.	25 00

I. crenata, microphylla.

SMALL-LEAVED JAPANESE HOLLY. Slow-growing and dense, and stands severe clipping. Best for hedges.

15 to 18 in. Bushy	Each \$3 00	24 00
18 to 20 in. Bushy	3 50	28 00
24 in. Bushy	5 00	40 00
2½ ft. Bushy	7 50	60 00

Specimens. 3 ft.15 00 120 00

Specimens. 3 ft. x 3 ft.20 00

Specimens. 4 ft.25 00

Specimens. 4 ft. x 4 ft.30 00

Specimens. 4½ ft.35 00

KALMIA latifolia.

MOUNTAIN LAUREL. Nursery-grown plants. These are very bushy and in every respect specially selected stock. Dark green foliage and showy masses of pink flowers in June. Stands shade well.

		Per 10	Per 100
18 in.	Each \$2 50	\$20 00	\$180 00
20 to 24 in.	3 50	28 00	
2 to 2½ ft.	4 00	32 00	
2½ to 3 ft.	5 00	40 00	

Car load lots. Prices on application.

LEUCOTHOE catesbaei.

DROOPING LEUCOTHOE. Graceful arching branches of dark shiny green leaves. Profuse showy white sprays in Spring. Mass for naturalesque effect in shady position.

12 to 15 in. Clumps	Each \$1 50	12 50	100 00
15 to 18 in. Clumps	2 00	16 00	145 00
18 to 24 in. Clumps	2 50	20 00	160 00

LONICERA. See pages 70 and 82.

L. pileata.

PRIVET HONEYSUCKLE. Low; semi-evergreen; dark green glossy foliage; white flowers, fragrant, fruit purple.

12 to 15 in. spread	Each \$1 00	8 00	65 00
---------------------------	-------------	------	-------

MAHONIA aquifolium.

OREGON HOLLYGRAPE. Desirable for undergrowth in evergreen shrub planting—rich green foliage bronzing in the Fall.

12 to 15 in.	Each \$1 50
1½ to 2 ft.	2 00

M. bealei (japonica).

LEATHERLEAF MAHONIA. Holly-like deep green leaves; large clusters of small yellow flowers; showy bunches of blue-black berries. Use to border evergreens; shade-loving.

15 to 18 in.	Each \$3 00
2 ft.	3 75
2 to 2½ ft.	4 50

PACHYSANDRA terminalis.

JAPANESE SPURGE. Splendid ground cover in any position. Spring brings a multitude of white nosegays on its dark green carpet.

Field-grown	per 1000, \$75.00;	1 50	10 00
Field-grown. Extra Heavy..	per 1000, 100.00;	2 50	15 00

PIERIS japonica. See page 24.

For Border Planting in the Full Sunshine or in Partial Shade

Rhododendrons

Andorra Rhododendrons are grown on open hillsides, and can be depended upon to produce satisfactory results. The following list comprises varieties carefully selected for their hardiness and beauty of flower.

HYBRID VARIETIES—ANDORRA-GROWN

RHODODENDRONS. Abraham Lincoln. Rosy

Crimson—

2½ ft.	Each \$7 50
3 ft.	10 00
Specimens. 3½ to 4 ft.	\$12.50 to 20 00

Album elegans. Blush White—

Specimens. 3½ to 4 ft. Each	\$12.50 to \$15 00
Specimens. 4 to 5 ft.	20 00

Album grandiflorum. Bluish White—

3½ ft.	Each \$12 50
4 ft.	15 00

Alex Dancer. Light Scarlet—

2½ ft.	Each \$7 50
3 ft.	10 00

Atrosanguinea. Dark Scarlet—

2 ft.	Each \$5 00
2½ ft.	7 50
3 ft.	10 00
3½ ft.	15 00

Candidissima. White—

2½ ft.	Each \$7 50
3 ft.	10 00
Specimens. 3½ to 5 ft.	\$15.00 to 25 00

Caractacus. Purple Crimson—

2½ ft.	Each \$7 50
3 ft.	10 00
Specimens. 3½ to 5 ft. XX.	\$12.50 to 25 00

RHODODENDRON. *Charles Bagley.* Bright Red.
 2½ ft. Each \$7 50
 3 ft. 10 00
 Specimens. 3½ to 5 ft. \$15.00 to 30 00

Charles Dickens. Scarlet—

2½ ft.	Each \$7 50
3 ft.	10 00

C. S. Sargent. Crimson—

2½ ft.	Each \$7 50
3 to 4 ft.	\$10.00 to 20 00

Delicatissimum. White—

3 ft.	Each \$10 00
Specimens. 3½ to 5 ft.	\$12.50 to 30 00

Dr. Torry. Lilac Red—

3½ ft.	Each \$12 50
4 ft.	20 00

F. D. Godman. Red.

2½ ft.	Each \$7 50
3 ft.	10 00
3½ ft.	15 00

General Grant. Rosy Scarlet—

3 ft.	Each \$10 00
3½ ft.	15 00
Specimens. 4 to 4½ ft.	\$20.00 to 25 00

Giganteum. Rosy Crimson—

2½ ft.	Each \$7 50
3 ft.	10 00
Specimens. 3½ to 4 ft.	\$12.50 to 20 00

Gomer Waterer. Blush White—

2 ft.	Each \$7 50
2½ ft.	10 00
3 ft.	15 00
4 ft.	\$20.00 to 25 00

Henry W. Sargent. Crimson—

2½ ft.	Each \$7 50
3 ft.	10 00
3½ ft.	15 00

Ignatius Sargent. Deep Pink—

2½ ft.	Each \$7 50
3 ft.	10 00
3½ ft.	15 00
Specimens. 4 to 5 ft.	\$20.00 to 25 00

J. Marshall Brooks. Scarlet—

2½ ft.	Each \$7 50
3 ft.	10 00
3½ ft.	15 00

EVERGREEN SHRUBS**RHODODENDRON. Jas. McIntosh. Red.**

2½ ft.	Each \$7 50
3 ft.	10 00

Kettledrum. Deep Red—

2 ft.	Each \$7 50
2½ ft.	10 00
3 ft.	12 50
4 to 5 ft.	\$20.00 to 30 00

Lady Armstrong. Pale Rose—

2½ ft.	Each \$7 50
3 ft.	10 00
3½ ft.	15 00

Lady Gray Edgerton. White—

2½ ft.	Each \$7 50
3 ft.	10 00
3½ ft.	15 00

Mrs. Chas. S. Sargent. Pink—

2½ ft.	Each \$8 50
3 ft.	10 00
3½ ft.	15 00

Mrs. Milner. Crimson—

2½ ft.	Each \$10 00
3 ft.	12 50
3½ ft.	15 00

Old Port. Plum Color—

2½ ft.	Each \$7 50
3 ft.	10 00
3½ ft.	15 00

Parson's Gloriosum. Blush—

2½ ft.	Each \$7 50
3 ft.	10 00
Specimens. 3½ ft.	15 00
Specimens. 4 to 4½ ft.	\$20.00 to 25 00

Parson's Grandiflorum rubrum. Deep Pink—

3 ft.	Each \$10 00
Specimens. 3½ ft.	15 00
Specimens. 4 ft.	20 00
Specimens. 4½ to 5 ft.	\$25.00 to 30 00

Purpureum elegans. Purple—

2½ ft.	Each \$7 50
3 ft.	10 00
3½ ft.	15 00
4 ft.	20 00

Roseum elegans. Rose Pink—

2½ ft.	Each \$7 50
3 ft.	10 00
Specimens. 3½ ft.	12 50
Specimens. 4 ft.	17 00
Specimens. 4½ to 5 ft.	\$25.00 to 35 00

NATIVE RHODODENDRONS

RHODODENDRON *catawbiense*.

CATAWBA RHODODENDRON. Parent of the hardy hybrids. Late Spring blooms of rose-lavender. Very heavy nursery-grown stock. Recommended for extensive woodland planting.

This is all nursery-grown stock, nearly as broad as its height. The very heaviest kind of material.

		Per 10
2½ ft.	Each \$6 00	\$50 00
3 ft.	7 50	60 00
3½ ft.	10 00	80 00

Car load lots. Prices on application.

R. *catawbiense grandiflorum*.

3½ ft. xx Bushy	Each \$15 00	135 00
Specimens. 4 ft.	17 50	160 00
Specimens. 4½ ft.	20 00	
Specimens. 5 ft.	25 00	

R. *catawbiense alba*.

Flowers of purest white, and like the above blooms in June.

2½ ft.	Each \$7 50
-------------	-------------

R. *carolinianum*.

CAROLINIAN RHODODENDRON. Low, compact evergreen with pale rosy-pink flowers.

2 ft.	Each \$5 00
2½ ft.	7 50
3 ft.	10 00
3½ ft.	12 50
4 to 4½ ft.	15 00

R. *maximum*.

ROSBAY RHODODENDRON. The high-growing Great Bay familiar to visitors in the Alleghenies. July brings forth the lavish white to blush pink bloom.

1½ to 2 ft. Bushy	Each \$2 50	22 50
2 to 2½ ft. Bushy	3 50	32 50
2½ to 3 ft.	4 00	37 50
3 to 3½ ft.	5 00	40 00
3½ to 4 ft.	6 00	48 00
4 to 5 ft.	7 50	60 00

Car load lots. Prices on application.

DWARF RHODODENDRONS

R. *minus (punctatum)*. Dotted Rhododendron.

18 to 20 in. Bushy	Each \$4 25	37 50
20 to 24 in. Bushy	5 00	40 00
24 to 30 in. Bushy	7 50	60 00

R. *wilsonianum*. Wilson Rhododendron.

20 to 24 in.	Each \$6 00	54 00
-------------------	-------------	-------

YUCCA *filamentosa*.

ADAM'S NEEDLE. Heavy clumps. Each \$1 50	12 50
---	-------

THREE ARE MANY deciduous trees, graceful in form, picturesque in outline, which are of great value in adding interest and life to a border or screen planting, which consists of a large proportion of Evergreens.

The Elms and Birches, the Ash, Hawthorns, Cellis and Gingho are a few of the trees which can be used thus with good effect. Eliminate these trees from the planting shown here and much of the charm would be gone.

Deciduous Trees

This List Conforms with 1923 Edition Standardized Plant Names

All Prices are for Stock of Our Selection. Customer's
Selection will be Charged at Value of Stock Selected

ACER *dasycarpum*.

SILVER MAPLE. Tall, stately tree growing best in moist soil; clear autumnal color.

		Per 10
10 to 12 ft.; 1½ to 1¾ in.	Each \$2 50	\$20 00
12 to 14 ft.; 1¾ to 2 in.	2 75	22 50

A. hippocastanum alba pleno.

DOUBLE WHITE-FLOWERED HORSE CHESTNUT. Regular outline; Maytime bloom. For lawn groups.

14 to 16 ft.; 2¾ to 3 in.Each \$10 00

16 to 18 ft.; 4 to 5 in.\$20.00 to 35 00

Larger Specimen Trees. Prices on application.

AMELANCHIER oblongifolia.

8 to 10 ft. Standards, stems 6 ft. Each \$7 50

AMYGDALUS (Peach). See *Persica*.**BETULA lutea.**

YELLOW BIRCH. Yellowish-gray bark;
strong grower. For windbreak or screen. Per 10
10 to 12 ft. Each \$3 50 \$27 50

B. nigra.

RIVER BIRCH. Screen or windbreak tree
thriving in moist places; tall and graceful.
6 to 8 ft. Each \$2 00 16 00

BROUSSONETIA papyrifera. Paper Mulberry—

10 to 12 ft.	Each \$2 00
12 to 14 ft.	3 00

CARPINUS caroliniana.

AMERICAN HORNBEAM. Shubby tree;
good foliage. Valuable for screen or hedge.
6 to 7 ft. Heavy Each \$7 50 60 00
7 to 8 ft. B. & B. Heavy 10 00 80 00
8 to 10 ft. B. & B. Heavy 15 00

Specimens. 12 to 14 ft. Prices on application.

C. betulus.

EUROPEAN HORNBEAM. Low, spreading;
for clipped or pleached forms. A good speci-
men for lawns.

Specimens. 6 to 8 ft. B. & B. \$8.50 to 12 50

Specimens. 10 to 14 ft. B. & B. 15.00 to 20 00

CATALPA bignonioides nana.

UMBRELLA CATALPA. Dense heads on
slender stems give common name. For formal
use.

5 to 6 ft. Standards Each \$3 50

C. speciosa.

WESTERN CATALPA. Large, hardy, rapid.
White flowers. For heavy screen or woods
planting.

10 to 12 ft.; 1½ in.	Each \$2 00	15 00
12 to 14 ft.; 2 in.	2 75	20 00
16 to 18 ft.; 3 in.	3 50	30 00

CEDRELA sinensis.

CHINESE CEDRELA. Pendulous clusters,
white flowers and tropical foliage. Rapid.
For border or screen.

16 to 18 ft.; 3 to 4 in. Each \$5 00

Uniformity of Variety and Size Gives the Perfect Avenue Planting

CELTIS occidentalis.

HACKBERRY. A slow-growing tree, foliage resembling the Elm; a good dense-headed tree for screen purposes.

	Per 10
8 to 10 ft.	Each \$2 50 \$18 50
10 to 12 ft.	3 50 28 00

CERASUS avium alba plena. (Prunus.)

DOUBLE WHITE FLOWERING CHERRY. Beautiful small tree; enlivens border planting with its bloom.

5 to 6 ft.	Each \$3 50
6 to 7 ft.	4 50
10 to 12 ft.	10 00
12 to 14 ft.	15 00
14 to 16 ft.	20 00

C. avium rosea pendula.

PINK WEEPING JAPANESE CHERRY. A form of rare beauty and Japanese character for the garden. Flowers in early Spring.

4 to 5 ft.	Each \$5 00
5 to 6 ft.	7 50

Specimens—

10 to 15 ft., height and spread	\$100.00 to 200 00
---------------------------------	--------------------

CERCIS canadensis.

AMERICAN RED BUD. Profuse rich purple flowers in early Spring. Effective with evergreens.

4 to 5 ft.	Each \$1 00	7 50
5 to 6 ft.	1 25	8 50
6 to 7 ft.	1 50	10 00
7 to 8 ft.	2 00	15 00
9 to 10 ft.	2 50	17 50

DOUBLE WHITE FLOWERING DOGWOOD
(*Cornus florida plena*)

Few introductions have the merit of this double flowered dogwood. The eight-petaled blooms closely resemble the Camellia—are born in clusters like *C. florida*, but give a great effect in flower.

		Per 10
4 to 5 ft.	Each \$5 00 \$40 00
5 to 6 ft.	6 50 50 00
7 to 8 ft. Specimens.	B. & B.	10 00
8 to 9 ft. Specimens.	B. & B.	12 50
10 to 12 ft. Specimens.	B. & B.	15 00

CERCIDIHYLLUM japonicum.

KATSURA TREE. Rich reddish Spring foliage; Fall coloring salmon pink; of interesting pyramidal form.

	Per 10
7 to 8 ft. B. & B.	Each \$7 50
8 to 10 ft. B. & B.	10 00
10 to 12 ft. B. & B.	15 00

Larger Specimens. 14 to 16 ft. Prices on application.

CLADRASTIS lutea.

YELLOW WOOD. Picturesque tree. Plant as specimen for its white flowers.

Specimens. 16 to 18 ft. Each \$75 00

CORNUS. See also pages 63 and 64.

C. florida.

WHITE FLOWERING DOGWOOD. Small upright tree. White blossoms; scarlet fruit. For border with evergreens.

Deciduous Trees for Screens and Windbreaks

By properly planting trees of quick-growing varieties in combination with slower growing, more permanent sorts, it is easily possible in a few years' time effectively to blot out objectionable views which mar the outlook from house or lawn, at the same time, by planting flowering trees, evergreens or shrubs on the lawn side, producing an added attractive landscape feature.

The Sweet Magnolia

A BEAUTIFUL, small, shrubby tree, thriving in any good soil or situation, and useful for positions too damp for many trees. The rich, glossy green foliage is glaucous beneath, giving the whole a silvery sheen. The cream-white, waxlike flowers are highly fragrant, and the seed-pods which follow open to show brilliant coral seeds.

Used in masses with evergreens, in the shrub border, as hedges or for specimens, it gives added pleasure to any planting.

PLANERA japonica.

JAPANESE WATER ELM. A rare tree.

18 to 20 ft.	Each \$20 00	
--------------	--------------	--

Oriental Plane Tree

EUROPEAN PLANE TREE.

We have made a specialty of growing the Oriental Plane, spaced wide apart in the nursery rows, insuring a fine symmetrically developed top, while frequent transplanting creates a thick fibrous root-system. Our trees are immeasurably superior to those grown without transplanting.

This rapid-growing, symmetrical, wide-spreading tree, is most suitable for city street planting. Attractive trunk and foliage, fine, symmetrical head. Not bothered by insect pests or smoky, dusty locations.

PLATANUS orientalis.

-----------------	-------------	------

PYRUS. See *Malus*, page 50.

PYRUS. See *Aronia*, page 59.

A GOOD EXAMPLE of a planting to enclose a garden and lengthen a vista from the house. *Cryptomerias* (in the corners), *Biatas*, *Box*, *Dogwood*, *Thorn* and *Red Bud* in the background; *Red-berried Viburnum* (*V. sieboldii*), *Styrax*, the *Hardy Orange* (*Citrus trifoliatus*), *Flowering Almond* and *Azalea* in the middle ground do not soon outgrow their usefulness for such a purpose, and make a good foil for color of the flowers in their seasons, adding the interest of brilliant fruits in fall and winter.

The Oak

On account of its long life and freedom from injury by storms the Oak is generally looked upon as an extremely slow growing tree. To the contrary some varieties grow quite as fast as our other hard wood trees, notably the Pin and Red Oaks. Both these varieties are admirably adapted to street, avenue and lawn planting, where a handsome permanent tree is required.

QUERCUS alba.

WHITE OAK. Broad, open head; in the Fall purplish-brown leaves, on spreading branches, held through Winter.

6 to 8 ft.	Each \$3 50

Specimens. 18 to 25 ft. Prices on application.	

The Elm

Holding a distinctive place as a street tree or stately specimen the American Elm has become more widely known than some of the other varieties; these should share with the American species its popularity as they are adapted to a wide range of soils and possess the merit of being fairly rapid growers.

ULMUS americana.

AMERICAN ELM. Vase-shaped head. Peculiarly appropriate for street or lawn planting, giving vaulted cathedral effect.

		Per 10

3 to 4 ft. Heavy	2 50	20 00	
4 to 5 ft. Heavy	3 50	28 00	

THE CHARM of informal small shrub planting is shown here. The pendulous form, softness of outline and richness of color of *Abelia*, *Azalea* and *Barberry* massed under an occasional Pine and flowering tree, make this walk delightful and full of surprises at all seasons of the year. An unimportant and unattractive side of the house may thus be turned into a spot of beauty.

CHIONANTHUS virginica.

WHITE FRINGE. Large growing shrub with rich heavy foliage and lacy flowers.	Per 10
2 to 3 ft.	Each \$1 50

5 to 6 ft. 1 50	10 00 60 00

GENISTA tinctoria.

WOADWAXEN. Small shrub; erect olive-green branches covered with yellow flowers in Spring.	Per 100
3 to 4 ft. Each \$2 00	15 00

HAMAMELIS virginiana.

WITCH-HAZEL. Tall shrub; yellow flowers in late Fall. For borders or in woods.	Per 100
2 to 3 ft. Each \$0 75	5 00
5 to 6 ft. 1 50	10 00

HIBISCUS syriacus.

ROSE OF SHARON. One of the best known of the tall "old-fashioned" shrubs. Particularly valuable for its handsome flowers in hot mid-Summer. Use in masses or in formal situations. The standards are especially attractive. Good hedge plant.

Boule de Feu. Red—

2 to 3 ft. Each \$0 75	5 00
3 to 4 ft. 1 00	

Jeanne d'Arc. White—

2 to 3 ft. Each \$0 75	5 00
-----------------------------	------

Lady Stanley. Double. Blush-pink eye.

2 to 3 ft. Each \$0 75	5 00
-----------------------------	------

paeoniflora. Double pink—

2 to 3 ft. Each \$0 75	5 00
-----------------------------	------

totus albus. White single flowers.

3 to 4 ft. Each \$0 75	5 00
-----------------------------	------

HIPPOPHAEA rhamnoides.**COMMON SEA BUCKTHORN.**

3 to 4 ft. Each \$0 75	5 00
4 to 5 ft. 1 00	6 50 50 00

HYDRANGEA.

Among the best flowering shrubs, valuable for their wealth of late Summer bloom. Advantageously used in front of taller shrubs.

H. arborescens.**SMOOTH HYDRANGEA.**

2 to 3 ft. Each \$0 75	5 00 40 00
3 to 4 ft. 1 00	7 50

H. arborescens grandiflora.

SNOWHILL HYDRANGEA. Valuable for shady places; great clusters of white flowers in mid-Summer.

2 to 3 ft. Each \$0 75	5 00
3 to 4 ft. 1 00	7 50 50 00

Japanese Winterberry

ILEX SERRATA (SIEBOLDII)

OF THE many interesting introductions from Japan, this beautiful shrub stands out as preëminent for its wonderful display of bright red, holly-like berries, which quickly crowd every twig. It is of slow growth and capitally suited for planting in evergreen beds or borders, where its beauty is doubly enhanced. The berries remain until late in the winter.

	Each	Per 10
2 to 3-foot plants	\$1 50	\$10 00
3 to 4-foot plants	2 00	15 00
4 to 5-foot plants	3 00	22 50
5 to 6-foot plants	4 50	36 00

HYDRANGEA paniculata grandiflora.

PEEGEE HYDRANGEA. Large heads of white double flowers in late Summer, turning to brilliant reds in Fall.
2 to 3 ft. Each \$1 50

Per 10

SPIRAEA.

A species of shrubs useful in every place—in garden, lawn, about the house and at edges of border planting. They include medium and dwarf varieties, blooming from early Spring to mid-Summer.

S. bumaldi Anthony Waterer.

WATERER SPIRAEA. A medium grower; rose-pink flowers in Summer; for garden or borders.

15 to 18 in.Each	\$0 75	6 00
18 to 24 in.	1 00	7 50

S. thunbergi.

THUNBERG SPIRAEA. Medium shrub; spreading branches; light green foliage; pure white flowers in earliest Spring.

2 to 3 ft.Each	\$1 00	7 50
------------	-----------	--------	------

S. van houttei.

VAN HOUTTE SPIRAEA. Medium height; of merit for lawn specimen or massing; white flowers in May.

2 to 3 ft.Each	\$0 75	4 00	35 00
3 to 4 ft.	1 00	6 00	45 00

Syphoricarpos

TWO attractive native plants seldom seen in masses where they can be used to best advantage. Planted as an under-growth for evergreens or taller shrubs, the slender branches are weighed down by clusters of the white waxy berries of the Snowberry and the bright maroon berries of the Coral Berry, like strings of coral. The Snowberry is particularly adapted to garden cultivation, while the Coral Berry is at its best under wilder conditions. Cut for house decoration, they last splendidly.

Syphoricarpos racemosus

SNOWBERRY

Low, shade-loving plant; large white berries in fall and carried through the winter.

	Each	Per 10	Per 100
2 to 3 ft.	\$0 50	\$4 00	\$35 00

ZANTHORHIZA apiifolia.

YELLOW ROOT. Dwarf shrub useful for
ground cover and undergrowth. Thrives either
in sun or shade in any soil.....

Per 100 \$15 00

5 00

Winter Effects With Deciduous Shrubs

In the average planting far too little thought is given to the winter condition of the shrubbery border. A careful selection of shrubs with brilliant colored bark, and especially varieties carrying their fruits and berries through the winter, cannot fail to make the shrubbery border as attractive through the dull months of the year as the flowers do in the spring seasons.

Vines, Climbing and Trailing Plants

This List Conforms with 1923 Edition Standardized Plant Names

ACTINEDIA polygama.

	Per 10
5-in. pots. Heavy	Each \$1 00 \$7 50

AKEBIA quinata.

FIVE LEAF VINE. Shiny foliage; clusters of small chocolate colored, fragrant flowers.	Each \$0 75	5 00
--	-------------	------

AMPELOPSIS quinquefolia.

VIRGINIA CREEPER. Rapid growing for fences, rocky slopes and banks; Fall foliage rich crimson.	Each \$0 75	5 00	Per 100
5-in pots	Each \$0 75	5 00	\$35 00

A. quinquefolia (engelmanni).

ENGELMANN CREEPER. Similar to previous sort, but will cling to walls.	Each \$0 75	5 00	35 00
5-in. pots	Each \$0 75	5 00	35 00

A. tricuspidata (veitchi).

BOSTON IVY. Strong, clinging vine of rapid growth; good Fall color. Best for walls.	Each \$0 75	6 00	45 00
4-in. pots; heavy	Each \$0 75	6 00	45 00

BIGNONIA grandiflora.

CHINESE TRUMPETCREEPER. Large, brilliant orange red flowers.	Each \$0 75	5 00
3 to 4 ft.; field-grown	Each \$0 75	5 00

B. radicans.

TRUMPET CREEPER. Strong climber with orange flowers in mid-Summer.	Each \$0 75	5 00	35 00
2 to 3 ft.; field-grown.....	Each \$0 75	5 00	35 00

CELASTRUS scandens.

BITTER-SWEET. Rapid growing; orange-yellow fruit. Its rank growth makes it useful on rough banks in billowy masses.	Each \$0 75	5 00	25 00
3 to 4 ft.; heavy; field-grown....	Each \$0 75	5 00	25 00

CLEMATIS coccinea (texensis).

SCARLET CLEMATIS. Rapid growing, covered in Summer with coral-red flowers.
 5 in. pots Each \$1 00 Per 10 \$7 50

C.—Large Flowering.

Henryi, white; Jackmani, purple; Duchess of Edinburgh, white, double; Mme. Edouard Andre, red Each \$1 00 8 50

C. paniculata.

SWEET AUTUMN CLEMATIS. Rapid-grower, handsome foliage, absolutely covered with white fragrant flowers in late Summer.
 5-in. pots Each \$0 75 5 00 Per 100 \$40 00

C. virginiana.

VIRGINS BOWER. Similar to last, but more open grower. Use for banks and walls.
 4-in. pots Each \$1 00 7 50 50 00

EUONYMUS radicans. (Evergreen.)

WINTERCREEPER. For buildings or ground cover; slow growing.
 2-year; field grown Each \$0 50 3 50 25 00

E. radicans carrieri. (Evergreen.)

GLOSSY WINTERCREEPER. Large, handsome, glossy, evergreen leaf; climber for buildings and walls.
 2-year; field-grown Each \$0 50 3 50 25 00

E. radicans vegetus. (Evergreen.)

BIGLEAF WINTERCREEPER. Scarlet fruited, strong growing evergreen vine. Handsome foliage. Used as ground cover.
 2-year; field-grown Each \$0 50 3 50 25 00

HEDERA helix.

ENGLISH IVY. Evergreen, strong growing, clinging vine. Use on walls or ground covering in shade.
 4-in. pots Each \$0 50 3 00 25 00

JASMINUM nudiflorum.

WINTER JASMINE. Yellow.
 6-in. pots Each \$1 00 7 50

LONICERA—Honeysuckle.**L. japonica, var. Halleana.**

HALLS JAPANESE HONEYSUCKLE. Dark, glossy green foliage; fragrant flowers from July till Fall. One of the best as fragrant thick screen on lattice or porch.
 4-in. pots Each \$0 50 4 00 30 00

PUERARIA thunbergiana.

KUDZU VINE. Dark green foliage; purple flowers in July.
6-in. pots Each \$1 00

VITIS—Grapes.

Useful for covering rough walls, fences and trees; rapid growers; large handsome foliage.

V. aestivalis.

SUMMER GRAPE. Fruit small and black.	Per 10	
Field grown	Each \$0 75	\$5 00

V. labrusca.

FOX GRAPE. Fruit purplish-black to brown.		
Field grown	Each \$0 75	5 00

WISTERIA frutescens.

AMERICAN WISTERIA. Strong growing climber; rapid, long runners; flowers of lilac purple.

3 to 4 ft.	Each \$2 50	20 00
4 to 6 ft.	3 50	30 00

W. sinensis.

CHINESE WISTERIA. Hardy climber with families of large violet-blue flowers. Trellis, porch and arbor work.

6-in. pots	Each \$1 50	10 00
3 to 4 ft.; field-grown.....	2 50	20 00
4 to 5 ft.; field-grown.....	3 50	30 00

W. sinensis.**STANDARDS**

Large heads covered with violet-blue flowers; handsome foliage; for garden. Stems four feet high.

Specimens. Standards. 5 to 6 ft.; 4 to 5 ft. stems Each \$15.00 to \$25 00

W. sinensis alba.

WHITE WISTERIA. Same as sinensis, but with white flowers.

Heavy; field-grown; 3 to 4 ft. Each \$2 50 20 00

W. multijuga.

LONGCLUSTER WISTERIA. A Japanese species. Immense panicles of deep purple.

6-in. pots	Each \$1 50	10 00
2 to 3 ft.; field-grown.....	1 50	

Roses

CLIMBING ROSES

\$1.00 each—\$9.00 per ten

Not less than five of a variety at the 10 rate

Dorothy Perkins, shell pink.

Dr. Van Fleet, flesh pink.

Lady Gay, cerise.

Madame Cochet, coral pink.

Palus Scarlet, scarlet.

Silver Moon, semi-double—pure white.

EVERBLOOMING HYBRID TEA ROSES

\$1.00 each—\$9.00 per ten

Not less than five plants of a variety at the ten rate

Carolina Testout, rose.

Duchess of Wellington, rose-madder.

General McArthur, bright crimson.

George C. Wand, vermillion.

Hadley, rich crimson-scarlet.

Jonkheer J. L. Mock, deep imperial pink.

Kaiserne Augusta Victoria, pearly-white.

Killarney, pink.

Killarney, white.

Lady Alice Stanley, coral rose.

Laurent Carle, brilliant carmine.

Madame Cochet, pink.

Madame Cochet, white.

Madame Edouard Herriot, coral red.

Madame Leon Paine, silvery salmon, orange yellow shadings.

Mary, Countess of Ilchester, crimson.

Ophelia, salmon pink.

THE TRAILING ROSE WICHURIANA. Its

spreading branches form a carpet on slope
or bank and form a background of shining
green to the delicate white blossoms.

2-year-old; in 5-in. pots.....Each \$0 75

Per 10 Per 100

\$6 00 \$50 00

Gardenia (Hybrid Wichuriana). Bright yellow.

In 6-in. potsEach \$1 00 8 50

BUSH ROSES. In height from two to four feet,
these roses find their place on the front of the
shrub border where their blossoms in Sum-
mer and scarlet fruit and bright twigs in
Winter add a pleasing note of color.

cherokee, Single White.....Each \$1 00 8 50

multiflora50 3 50

rugosa. 1½ to 2 ft.....75 5 00

2 to 2½ ft.....1 00 7 50

rugosa alba. White. 2 to 3 ft.....1 00 7 50

setigera, Prairie Rose. 2 to 3 ft.....75 5 00

A GOOD example of the use of Evergreen within a garden. They make a delightful background for the rich coloring in the flower borders. The enclosing hedge is of Hemlock; the beds are edged with Box, and Specimen Box Bush mark important corners. The pool is bordered with Prostrate Junipers (*J. sabina tamariscifolia*).

Hardy Herbaceous Perennials

This List Conforms with 1923 Edition Standardized Plant Names

N. B. Quantities of 5 and 50 OF A VARIETY will be furnished at the 10 and 100 rates, respectively.

Less than five plants of one sort are sold at the ten-rate, plus 50%.

HERE is a strong appeal in the gardens of old farmhouse and cottage with the glowing yellow and orange Day-lilies, bright flowered Phlox and Peonies, and their show of hardy Chrysanthemums; a demonstration of the ease with which these plants are grown and the little care they require when one thinks how little time the busy country house-wife can spend in gardening. The old-fashioned perennials have been enriched with many improved varieties and species, and every corner of the grounds can be kept bright throughout the whole growing season; the tall growing varieties can be effectively planted in the shrubberies, their flowers showing against the background of evergreen or shrub, and the lower sorts blending the edge of shrubbery and lawn in naturalesque borders, or the wood edge made gay with some of the Asters, Foxgloves, Ferns and many others.

Of flowering plants, two things are demanded—Varieties which will brighten our lawns and gardens, and which can be cut for house decoration—these hardy herbaceous plants reward us bounteously in both requirements. The height, color and flowering season of each variety are given in the following list.

AQUILEGIA

LONG-SPURRED COLUMBINE

THE wealth of the various colors of this Columbine can only be appreciated by seeing them in bloom, but we have endeavored to give an idea of their loveliness. The Long-spurred Hybrids with their many colors flower in June. They can be used as garden plants, but rich effects can be procured by naturalizing them in masses.

Aquilegia, Mrs. Scott Smith's Long-spurred Hybrids. May to August. In a wide range of mixed colors. \$3.50 for 10, \$20 per 100.

This List Conforms with 1923 Edition Standardized Plant Names

Hardy Ferns

50c each; \$3.50 per 10; \$25.00 per 100

ADIANTUM pedatum (Maidenhair Fern). 1 to 2 ft. Moist, shaded positions.

ASPIDIUM acrostichoides (Christmas Fern). 1 to 2 ft. Evergreen. Dry or moist soils in shady places.

A. Felix-mas (Male Fern). 2 ft. Semi-shaded positions, dry or moist soils.

A. Goldianum. 2 to 4 ft. Semi-shaded positions, dry or moist soils.

A. marginale. Evergreen. 1 to 2 ft. Shaded positions, dry or moist soils.

ASPLENIUM Filix-fœmina (Lady Fern). 2 to 3 ft. Open or shaded positions, in moist or dry soils.

BOTRYCHIUM virginianum (Moonwort). 6 to 12 in. Shaded positions, moist or dry soils.

DICKSONIA punctilobula (Boulder Fern). 2 to 3 ft. For open positions; forms large plantations.

ONOCLEA sensibilis (Sensitive Fern). 1 to 2 ft. For open planting and wet soils.

O. Struthiopteris (Ostrich Fern). 2 to 4 ft. For open positions, dry or moist soils.

OSMUNDA gracilis (Flowering Fern). 2 to 4 ft. Open or shaded positions, and moist soils.

O. Claytoniana. 2 to 5 ft. For open plantings, dry or moist soils.

O. cinnamomea (Cinnamon Fern). 2 to 5 ft. For open or shaded positions, in wet soils.

O. Regalis. (Royal Fern.) Wet positions. Sun or shade. 2 to 3 ft.

PHEGOPTERIS hexagonoptera. For shade. 1 ft.

POLYPODIUM vulgare (Polybody). For rock work. 4 to 10 in.

WOODSIA obtusa. 6 to 12 in. Shady places, in moist soil.

WOODWARDIA angustifolia (Chain Fern). 1 ft. Open or shaded positions, in moist soils.

Hardy Chrysanthemums

When frost has browned the other flowers of the garden, these hardy plants burst forth in a profusion of bloom, in colors which seem to catch the most delicate tints and shades of bronzing leaf and gorgeous autumn sunset, while some foretell the purest white of coming snow, and pink of purpling shadows.

Planted in the hardy garden, border or lawn at edge of shrubbery, they will yield a wealth of bright flowers in late autumn, and fill the house with cut flowers.

Queen of May No. 261. Standard petals rosy lilac, veined with yellow. Tall. Distinct.

Rolandiana No. 275. Standard petals blue; fall petals reddish-purple.

Thorbecke No. 263. Delicate sulphur yellow.

Walneriana No. 277. Standard petals deep lavender-blue; fall petals clear bright blue.

Rich in Form and Color, the Peony is a Fine Cut Flower

Pæonia—Peonies

Rich in an infinite variety of color, from white through tints of pink and rose to darkest crimson, these hardy plants grace garden, bed or border with gorgeous bloom in May or June, and their fragrant flowers are most decorative when cut for the house or porch. Whether against a background of evergreens or shrub border, or in the garden, they yield a rich return in blossoms. They are best transplanted in August or September, but may be moved in very early spring, and should be planted about two feet apart in good ordinary garden soil.

We are making some changes in our extensive plantations of peonies, and can offer strong plants from some of the best varieties, in assortment, for Fall planting, at exceptional values.

Our Assortment of Mixed Varieties

\$4.00 per 10 plants; \$25.00 per 100 plants

DOUBLE PEONIES

	Each	Per 10

Phlox

PHLOX PANICULATA—HYBRID PERENNIAL PHLOX

A succession of flowers of greatest beauty from early July until frost, in softest tones of pink and rose, salmon, mauve and silvery white in great panicled blooms, will brighten the hardy border of mixed varieties of Phlox. Easy of culture, and perfectly hardy, the plants can be used at the edge of shrub border or in the garden, spaced about eighteen inches apart.

Insecticides

The frequent inspection and treatment of valuable trees, shrubs and ornamentals should not be omitted in these days when insects and blights are so prevalent. Provide your plants with good soil and plant food, but at the same time have a watch for borers, caterpillars, plant lice and other pests, which are easily remedied in the first stages of their progress by the timely application of sprays or dusts. For a convenient guide consult our list of insecticides. If the trouble is something new to you write us or send us a specimen. A proper remedy can be recommended in the majority of instances.

Unless otherwise noted, all prices F. O. B. Philadelphia.

All prices are subject to change without notice.

Sunoco Spray Oil

A heavy oil which readily gives a permanent and uniform emulsion when mixed with water. No heating, no odor, no tiresome procedure. For all scale insects, mealy bugs, wooly aphids, mix at strength of one part oil to twenty parts of water (1 qt. to 5 gallons). This also kills the eggs and prevents summer infestations of red spider, aphids and many other insects. January, February and March are favorable months for this treatment, but the late fall, just after the leaves drop, is just as good. Compared with lime sulphur solution, it is more efficient, unobjectionable to the skin, clothing, or paint on buildings and is easy on the machinery. It is also used as a summer spray and as a spreader for Bordeaux, lead arsenate or nicotine sulphate. Do not use with lime sulphur.

PRICES:	½ gallon cans.....	@ \$0.85
	1 gallon cans.....	@ 1.50
	5 gallon cans.....	@ 5.75
	15 gallon drums.....	@ .70 per gallon
	30 gallon drums.....	@ .60 per gallon
	50 gallon drums.....	@ .50 per gallon

CALCIUM CASEINATE (Red Diamond). A powder. Not in itself an insecticide. Its peculiar properties cause a better adhesion and a uniform coating of the poison sprays to the foliage, fruit or bark, effecting an economy by giving better coverage and keeping the poison on the parts of the plant when it would otherwise be weathered off. 1½ lbs. are sufficient for 200 gallons (or one tablespoonful to 5 gallons) of spray material such as lead arsenate, lime sulphur, nicotine sulphate, etc. It is a vital ingredient of dry mixed sulphur and lime. Ask for *Red Diamond Brand*.

PRICES:	1½ lb. sacks.....	@ \$0.35
	10 lb. sacks.....	@ 1.40
	50 lb. sacks.....	@ 6.00
	100 lb. sacks.....	@ 11.00

LEAD ARSENATE. A powder. An internal poison for destruction of leaf-chewing insects and fruit feeders, such as codling moth, curculio, bag worms, walnut caterpillars, tent caterpillars, tussock moth, potato bugs and many others. Use 2 to 3 lbs. per fifty gallons of water.

PRICES:	4 lb. bags.....	@ \$1.75
	48 lb. cartons.....	@ 16.25

BORDEAUX MIXTURE. A powder. Fungicide. Absolutely essential on some crops to prevent blight and other diseases. Peach leaf curl, potato blight, black rot of grapes, bitter rot of apples, leaf spots of many shade trees and diseases of many vegetables, perennials, roses, etc., are properly treated by using this at strength of 3 to 6 lbs. in 50 gallons of water (1 to 2 ounces per gallon).

PRICES:	5 lbs.	@ \$1.75
	50 lbs.	@ 12.50

BORDEAUX-LEAD ARSENATE combination. A powder. The insecticidal and fungicidal properties of these two materials, as previously described, are brought together in this useful combination. Use 3 to 6 lbs. to 50 gallons of water.

PRICE:	5 lbs.	@ \$1.75
---------------	--------------	----------

PARADICHLOROBENZENE (P. T. B.). Small crystals. Apply these about base of trees for control of borers in peach and cherry (not apple). Use from $\frac{1}{2}$ to 1 ounce per tree. It may be used with perfect safety on very young (2-year-old trees) if raked from about trunk at end of three weeks. Directions on cans.

PRICES:	5 lbs.	@ \$1.75
	10 lbs.	@ 3.50
	25 lbs.	@ 7.50
	50 lbs.	@ 14.50
	100 lbs.	@ 28.00

NICOTINE SULPHATE (40%). A liquid. Aphids and all kinds of soft-bodied insects and some midges and some larvæ which do not come in this category are most effectively destroyed by this contact poison when used one part to 800 of water (1 or 2 teaspoonfuls per gallon). Makes a fine combination with Sunoco Spray Oil for control of box leaf miner and lace bugs. Roses, chrysanthemums, nasturtiums and other flowers should be sprayed with it regularly throughout the summer. Full directions on can.

PRICES:	$\frac{1}{2}$ lb. can.....	@ \$1.25

SUBLIMED FLOWERS OF SULPHUR. 100% pure. Used for volatilizing on steam pipes in greenhouses for mildew and diseases of roses, carnations, etc.

PRICES:	10 lbs.	@ \$1.00
	155 lb. bbl.	@ 9.00

DUSTING SULPHUR (Niagara Sulfodust). A superior sulphur for dusting only. Flows easily and evenly and contains a special sticker. Effective control for mildew, red spider and effective repellent against many pests.

PRICES: 100 lb. bags.....@ \$4.25

NICOTINE DUST. Quick control of aphids, slugs, thrip and many beetle larvæ is obtained by this material. It can be applied much more rapidly than the liquid nicotine sprays and is a great economy when many plants are to be covered. Perfectly harmless to the most tender foliage. Good coverage is obtained on under side of leaves. Lace bugs on Azaleas and Rhododendrons and box leaf miner adults are some of the difficult pests it controls.

PRICES: 2% Nicotine content: In 25 lb. drums.....@ \$5.00

3% Nicotine content: In 25 lb. drums.....@ 6.00

LEAD ARSENATE DUSTS (Niagara Brand). Used for the same insects as the lead arsenate sprays. Rapidly applied and very economical. Recommended highly by experts. 10% lead arsenate content. **PRICE:** 100 lb. sacks.....@ \$7.40

ALL-IN-ONE-DUST (Niagara Brand). In this dust the combination of lead arsenate, nicotine, and a fungicide, gives maximum results on leaf-chewing insects, soft-bodied insects and fungous diseases. Hence it is truly an "All-in-one" dust. It reduces dusting to the ideal of simplicity.

PRICES: 1 lb.....@ \$0.25 100 lbs.....@ \$20.00

Spraying and Dusting Outfits

OUTFIT No. 20. Niagara Garden Dust Gun, complete with 1 lb. of "All-in-one" dust and book of directions.
